SPECIAL FEATURES

Helene Soual-Kopp is another in our stable of female winegrowers who are leading the charge when it comes to producing wines with exceptional character and personality. This white is made from a blend of grape varieties that have never been used together in this way before, but combine to make a wine of such elegance and finesse, it would be hard to find any comparison. She works on only 1.8 hectares of this well-known Haut Medoc Bordeaux Chateau, and makes only 9000 bottles per year. A rare find.
